

#NEVERMIND

ABOUT US | ACHIEVEMENTS | CONTACT US

December 2021

#NEVERMIND is a FRRB granted project coordinated by IRCCS Fondazione Don Carlo Gnocchi to develop **engineered nanovectors** to ameliorate the efficacy of drugs for neurodegenerative diseases and brain cancer.

NEVERMIND COFFEE HOUR: DISCUSSION AND FUN

Starting on December 2nd, the NEVERMIND Consortium has begun a series of free webinars on nanotechnologies, neuroscience and nanomedicine. The first two webinars have been a wonderful occasion to learn and discuss about nanomedicine and neuro-inflammation in neurodegeneration, but there are more to come. [read more](#)

NANOTECHNOLOGY INSIGHTS: ELLA

The Laboratory of Nanomedicine and Clinical Biophotonics (LABION) is now renewed. Thanks to a grant funded by the Italian Ministry of Health, five new **state-of the-art instruments for nanotechnology applications** have just arrived. This month we present **Ella** as the new instrument for automated ELISA assays. [read more](#)

News

MERRY CHRISTMAS!!

The #NEVERMIND Consortium wishes you all **Merry Christmas** and happy New Year!

Stay safe, enjoy and relax with friends and families.

NANOTECHNOLOGIES UPDATES

"Advances in the field of micro- and nanotechnologies applied to extracellular vesicle research: take home message from ISEV2021". A recent review published by **Micromachines** about new achievements in nanotechnologies applied to Extracellular Vesicle research. [Read the Article](#)
