ABOUT US | CONTACT US

## Welcome!

This is the first release of the #NEVERMIND newsletter.

NEVERMIND is an FRRB granted project coordinated by IRCCS Fondazione Don Carlo Gnocchi

The main aim of the project is to develop **engineered nanovectors** to ameliorate the efficacy of drugs for neurodegenerative diseases and brain cancer.

*A multidisciplinary approach for the development of nanodrugs to cure brain disorders*

## NANODRUGS TO CURE THE BRAIN

3 hospitals and 2 Universities of the Milano area, are now fighting together Alzheimer's disease and Glioblastoma: looking for the next generation therapy

## WHERE IS NANOMEDICINE TODAY?

Nanomedicine takes advantage of innovative nanotechnologies to face complex medical challenges, overcoming critical barriers in conventional medicine. The ETPN (European technology Platform on Nanomedicine) board members have recently published a position paper to debate some of the raised criticisms.

## News

### KICK-OFF MEETING

On 21st January 2020, the Kick-off Meeting of the Nevermind project took place at Fondazione Don Gnocchi.

### WHO WE ARE

This newsletter will bring you in the laboratories involved in the project. We will start next month introducing all of the young researchers enrolled in the project by the NEVERMIND project Partners.
