

# #NEVERMIND

ABOUT US | ACHIEVEMENTS | CONTACT US

## January 2021

#NEVERMIND is a FRRB granted project coordinated by IRCCS Fondazione Don Carlo Gnocchi to develop **engineered nanovectors** to ameliorate the efficacy of drugs for neurodegenerative diseases and brain cancer.

## NANOVECTORS AGAINST SARS-COV-2: VACCINES

2021 began with the vaccination campaign against SARS-CoV-2 and currently the European Medicines Agency and the AIFA have authorized two vaccines against COVID-19. But, what do vaccines contain?

## WHAT WE EXPECT FROM 2021

Great efforts and hard work were spent to release the first batches of engineered nanovectors that will be soon loaded with drug analogues to fight Alzheimer's disease and Glioblastoma. Here a brief report of what we expect for 2021 for the #NEVERMIND project.

## News

### NEW YEAR VIBES

2020 has been marked by the COVID-19 pandemic. The NEVERMIND Consortium proved its passion for the project that never stopped! Now we are now ready to face 2021 with renovated energy.

### WHO WE ARE

This newsletter will bring you in the laboratories involved in the project. Next month we will focus on nanotechnologies to enter the brain and get rid of pathogens and diseased cells.
