

#NEVERMIND

ABOUT US | ACHIEVEMENTS | CONTACT US

November 2021

#NEVERMIND is a FRRB granted project coordinated by IRCCS Fondazione Don Carlo Gnocchi to develop **engineered nanovectors** to ameliorate the efficacy of drugs for neurodegenerative diseases and brain cancer.

BOOK: THE MAN WHO MISTOOK HIS WIFE FOR A HAT

Brain lesions can cause a wide range of neurological disorders that influence the behavior of patients. In this book by **Oliver Sacks**, fascinating patients' cases introduce the reader to a wide range of neurological disorders. Interesting and educational, would you like to learn more about neuroscience from a new point of view? [read more](#)

NANOTECHNOLOGY INSIGHTS: NANOSIGHT

The Laboratory of Nanomedicine and Clinical Biophotonics (LABION) is now renewed. Thanks to a grant funded by the Italian Ministry of Health, five new **state-of the-art instruments for nanotechnology applications** have just arrived. We start to present the new instrument for nanoparticle tracking analysis, the **Nanosight NS300**. [read more](#)

News

#NEVERMIND COFFEE HOUR

A **series of free webinar** about nanomedicine and neuroscience, with the participation of the #NEVERMIND Partners and their Collaborators. **First webinar on 2nd December 2021**. Register [here](#)

NEW LAB FOR LABION TEAM

Next month we will present you one more instrument just arrived at LABION. Stay tuned! ☺
