## November 2020

This is the second release of the newsletter of #NEVERMIND, FRRB granted project coordinated by IRCCS Fondazione Don Carlo Gnocchi aimed at developing **engineered nanovectors** to ameliorate the efficacy of drugs for neurodegenerative diseases and brain cancer.

Life in lab for the #NEVERMIND researchers, nanotechnologies to cure the brain

## YOUNG RESEARCHERS, BRILLIANT MINDS

Thanks to the #NEVERMIND project young and super-young researchers can keep on working on their favorite research topics, trying to find innovative solutions to brain diseases using nanotechnologies

## THE NEVERMIND TEAM: the Alzheimer's experts

The **Laboratory of Molecular Medicine and Biotechnologies** of Fondazione Don Gnocchi is equipped with new and high-tech instruments. For more than 30 years the laboratory has extensively analyzed the neuroinflammation associated with Alzheimer's Disease (AD) by different approaches.

## News

### RESEARCHERS NIGHT

The #NEVERMIND consortium is glad to announce its participation at **Meet Me Tonight 2020** virtual event on 27th and 28th November 2020

### WHO WE ARE

This newsletter will bring you in the laboratories involved in the project. Next month we will focus on nanotechnologies to enter the brain and get rid of pathogens and diseased cells.
