

#NEVERMIND

ABOUT US | ACHIEVEMENTS | CONTACT US

February 2022

#NEVERMIND is a FRRB granted project coordinated by IRCCS Fondazione Don Carlo Gnocchi to develop **engineered nanovectors** to ameliorate the efficacy of drugs for neurodegenerative diseases and brain cancer.

ALZHEIMER PORTRAITS

In 1996, the Dutch photographer Alex Ten Napel began to photograph people suffering from Alzheimer's disease. Do you know the result? A wonderful series of photographs to explore a reality of dementia that differed from the norm.

SECOND YEAR ACHIEVEMENTS

The second year of the NEVERMIND project allowed the consortium to reach some of the main goals of the project. Some unexpected results and pitfalls have been faced and solved. Here a brief sum up of our work. [read more](#)

DISSEMINATION ACTIVITIES

#NEVERMIND Coffee Hour!

Research advances, curiosities and friendly discussion. We have hosted and discussed about nanomedicine, extracellular vesicles, inflammation and brain diseases. What's next? Keep in touch ;)

NANOTECHNOLOGIES UPDATES

*"Advances in the field of micro- and nanotechnologies applied to extracellular vesicle research: take home message from ISEV2021". **Micromachines, 2021** about new achievements in nanotechnologies applied to Extracellular Vesicle research. [Read the Article](#)*
