

# #NEVERMIND

ABOUT US | ACHIEVEMENTS | CONTACT US

## July & August 2022

#NEVERMIND is a FRRB granted project coordinated by IRCCS Fondazione Don Carlo Gnocchi to develop **engineered nanovectors** to ameliorate the efficacy of drugs for neurodegenerative diseases and brain cancer.

### COMING IN THE BRAIN: LIPOSOMES FOR BOOSTING DRUGS ACROSS THE BLOOD-BRAIN BARRIER

A study published by *Cancers*, a peer-reviewed, open access journal of oncology, demonstrates that the incorporation of an anti-cancer drug in liposomes strongly improves its in vivo half-life and increases the amount of drug reaching the brain. [Read more](#)

### LIPID NANOPARTICLES FOR mRNA DELIVERY

mRNA lipid nanoparticles (LNPs) have recently been successfully proposed as a vaccine against SARS-CoV-2, although the research and development began decades ago. [Read more](#)

## News

### VIDEO

We have created a **short and simple video** explaining the idea of the NEVERMIND project!

You can have a look at this new video at this [link](#) and on our social channels.

### ENJOY THE SUMMER!!

The NEVERMIND Consortium is ready to have a break for the summer holidays! We will go back with renovated energy, ideas and projects!

**We wish you all happy holiday!**
