

#NEVERMIND

ABOUT US | ACHIEVEMENTS | CONTACT US

November 2022

#NEVERMIND is a FRRB granted project coordinated by IRCCS Fondazione Don Carlo Gnocchi to develop **engineered nanovectors** to ameliorate the efficacy of drugs for neurodegenerative diseases and brain cancer.

CAN THE EXPOSURE TO LOW-LEVEL AMBIENT POLLUTION WORSEN ALZHEIMER'S DISEASE?

Numerous animal studies have revealed neurotoxicity in the gray and white matter areas in the mouse brain after an exposure to high concentrations of PM, but what about the exposure to low-levels of PM? [Read more](#)

ADVANCES IN DRUG DELIVERY TO THE BRAIN

A multidisciplinary research teams involved in NEVERMIND project have developed enzyme-sensitive liposomes carrying neuroprotective therapeutics capable to cross the blood-brain barrier in vitro, and to release a poorly bioavailable drug. [Read more](#)

News

VIDEO

We have created a **short and simple video** explaining the idea of the NEVERMIND project!

You can have a look at this new video at this [link](#) and on our social channels.

NEUROSCIENCE NETWORK

Researchers of Fondazione Don Gnocchi will take part at the

[II Annual Meeting of IRCCS Networks about Neurosciences and NeuroRehabilitation!](#)
