

#NEVERMIND

ABOUT US | ACHIEVEMENTS | CONTACT US

April 2022

#NEVERMIND is a FRRB granted project coordinated by IRCCS Fondazione Don Carlo Gnocchi to develop **engineered nanovectors** to ameliorate the efficacy of drugs for neurodegenerative diseases and brain cancer.

INTERNALIZATION OF NANOTHERAPEUTICS

A new strategy was developed to predict the therapeutic responses of nanomedicines: the innovative approach is based on intracellular nanoparticle exposure rather than the overall accumulation in tumour mass with promising results for oncology therapeutics [read more](#)

THE NANOMEDICINE STRATEGY

What is in common between drug delivery and tissue engineering? NANOMEDICINE! Nanotechnologies are changing the approach to drug delivery and tissue engineering introducing new strategies and methods to reach better results. This was the topic of NDDTE2022. [read more](#)

News

SPRING VIBES

For the Scientific community the **SPRING / SUMMER SEASON** is not a matter of fashion, it means **CONGRESSES!!**

The new season of meetings is starting and this year, hopefully, we will **meet each other in person**.

NANOTECHNOLOGIES UPDATES

*"Advances in the field of micro- and nanotechnologies applied to extracellular vesicle research: take home message from ISEV2021". **Micromachines, 2021** about new achievements in nanotechnologies applied to Extracellular Vesicle research. [Read the Article](#)*
